

## EOS

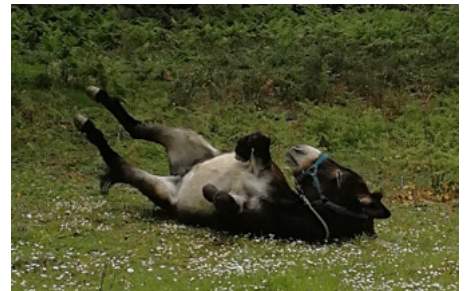

Hello, I'm Eos, 13 years young, and the leader of the herd of donkeys. My name is derived from the goddess of dawn. Like Cleo, I come from Plakias, where I used to work with many other donkeys in the summer. We would take walks with tourists on our backs.

I have the most experience with people, and I'm usually very calm. My biggest passion is eating, even when we're on the go. I'm not the biggest donkey, but I'm very strong. Some people are a bit scared of me because of my size, but there's really no need to be. I'm actually very cautious, and I'm a big cuddly donkey. I also love rolling in the soft sand.

I also enjoy working and going for nice walks. I often wear a traditional wooden pack saddle. On it, I carry backpacks, ropes, water bottles, and so on. I'm always happy when I have the saddle on my back because that means we're going to work. Sometimes a little child sits on my back, but only if they're tired and not too heavy. The saddle itself already weighs almost 20 kilograms, and those wooden planks aren't so comfortable.

I like walking next to Arno, and Barbara is great company too. During the walk, I always make sure everyone is there. Sometimes I stop and don't want to walk any further. It's often because my friend Popy is still far behind. She can't walk as fast with her short legs.

I also love children very much, except when they're very noisy, running around, and shouting. If you go for a walk with me, please keep in mind that I will test you!

Hope to see you soon. Oh yes, I'm crazy about fruit.
